

Biocommunity Kansai

~Regenerative Medicine Subcommittee~

KRI ; Kansai Regenerative Therapy Initiative

Social Issues : Regenerative Medicine

Representative : Yoshiki Sawa (Project Professor, Graduate School of Medicine, Osaka University
Director, Osaka Police Hospital)

Leader : Jun Takahashi (Center for iPS Cell Research and Application Kyoto University)

Purpose of the Subcommittee

- ◎ Continuing the efforts of kTi (kansai Tissue Initiative) and contributing to the development of regenerative medicine
- ◎ Form a collaboration between academic research institutes in Kyoto, Osaka, and Kobe, promote the participation of companies and government agencies, and form a consortium for open innovation
- ◎ It also serves as a salon for discussions on collaboration and future visions
- ◎ Evolving regenerative medicine by building a regenerative medicine ecosystem, raising social awareness, human resource development, and global expansion
- ◎ Promote social implementation in collaboration with BiocK's Cell Manufacturing Subcommittee
