

MedTech Innovation Subcommittee

Kansai MedTech Innovation Initiative

Social Issue Area : Healthcare

Objective of initiatives : Cultivate human resources for the development of medical devices

Leader institute : Osaka University/Terumo Corporation

Representative : Yoshiki Sawa (Appointed professor of Health science Osaka University Graduate School of Medicine/Director of Osaka Police Hospital)

Leader : Masakazu Yagi (Osaka University)/Fumihisa Hirose (Terumo Corporation)

Objective of the Subcommittee

Carry out a project in Kansai area through various discussions between players from industry government, academia and medical, with the aim to cultivate human resources for the creation of medical device.

In addition, extensive conversations will be promoted to discuss issues about launching new projects and implementing functions of incubation.

Through these discussions, create Need-driven Open Innovation(NOI) platform that will develop new healthcare and health industry.

Activities of Subcommittee

Salon Function

Clarify issues and consider collaborative projects, through discussions.
 Consider issues to launch new projects and implement functions of incubation.

Project Promotion Function

Create consortium.
 Promote projects to cultivate human resources.

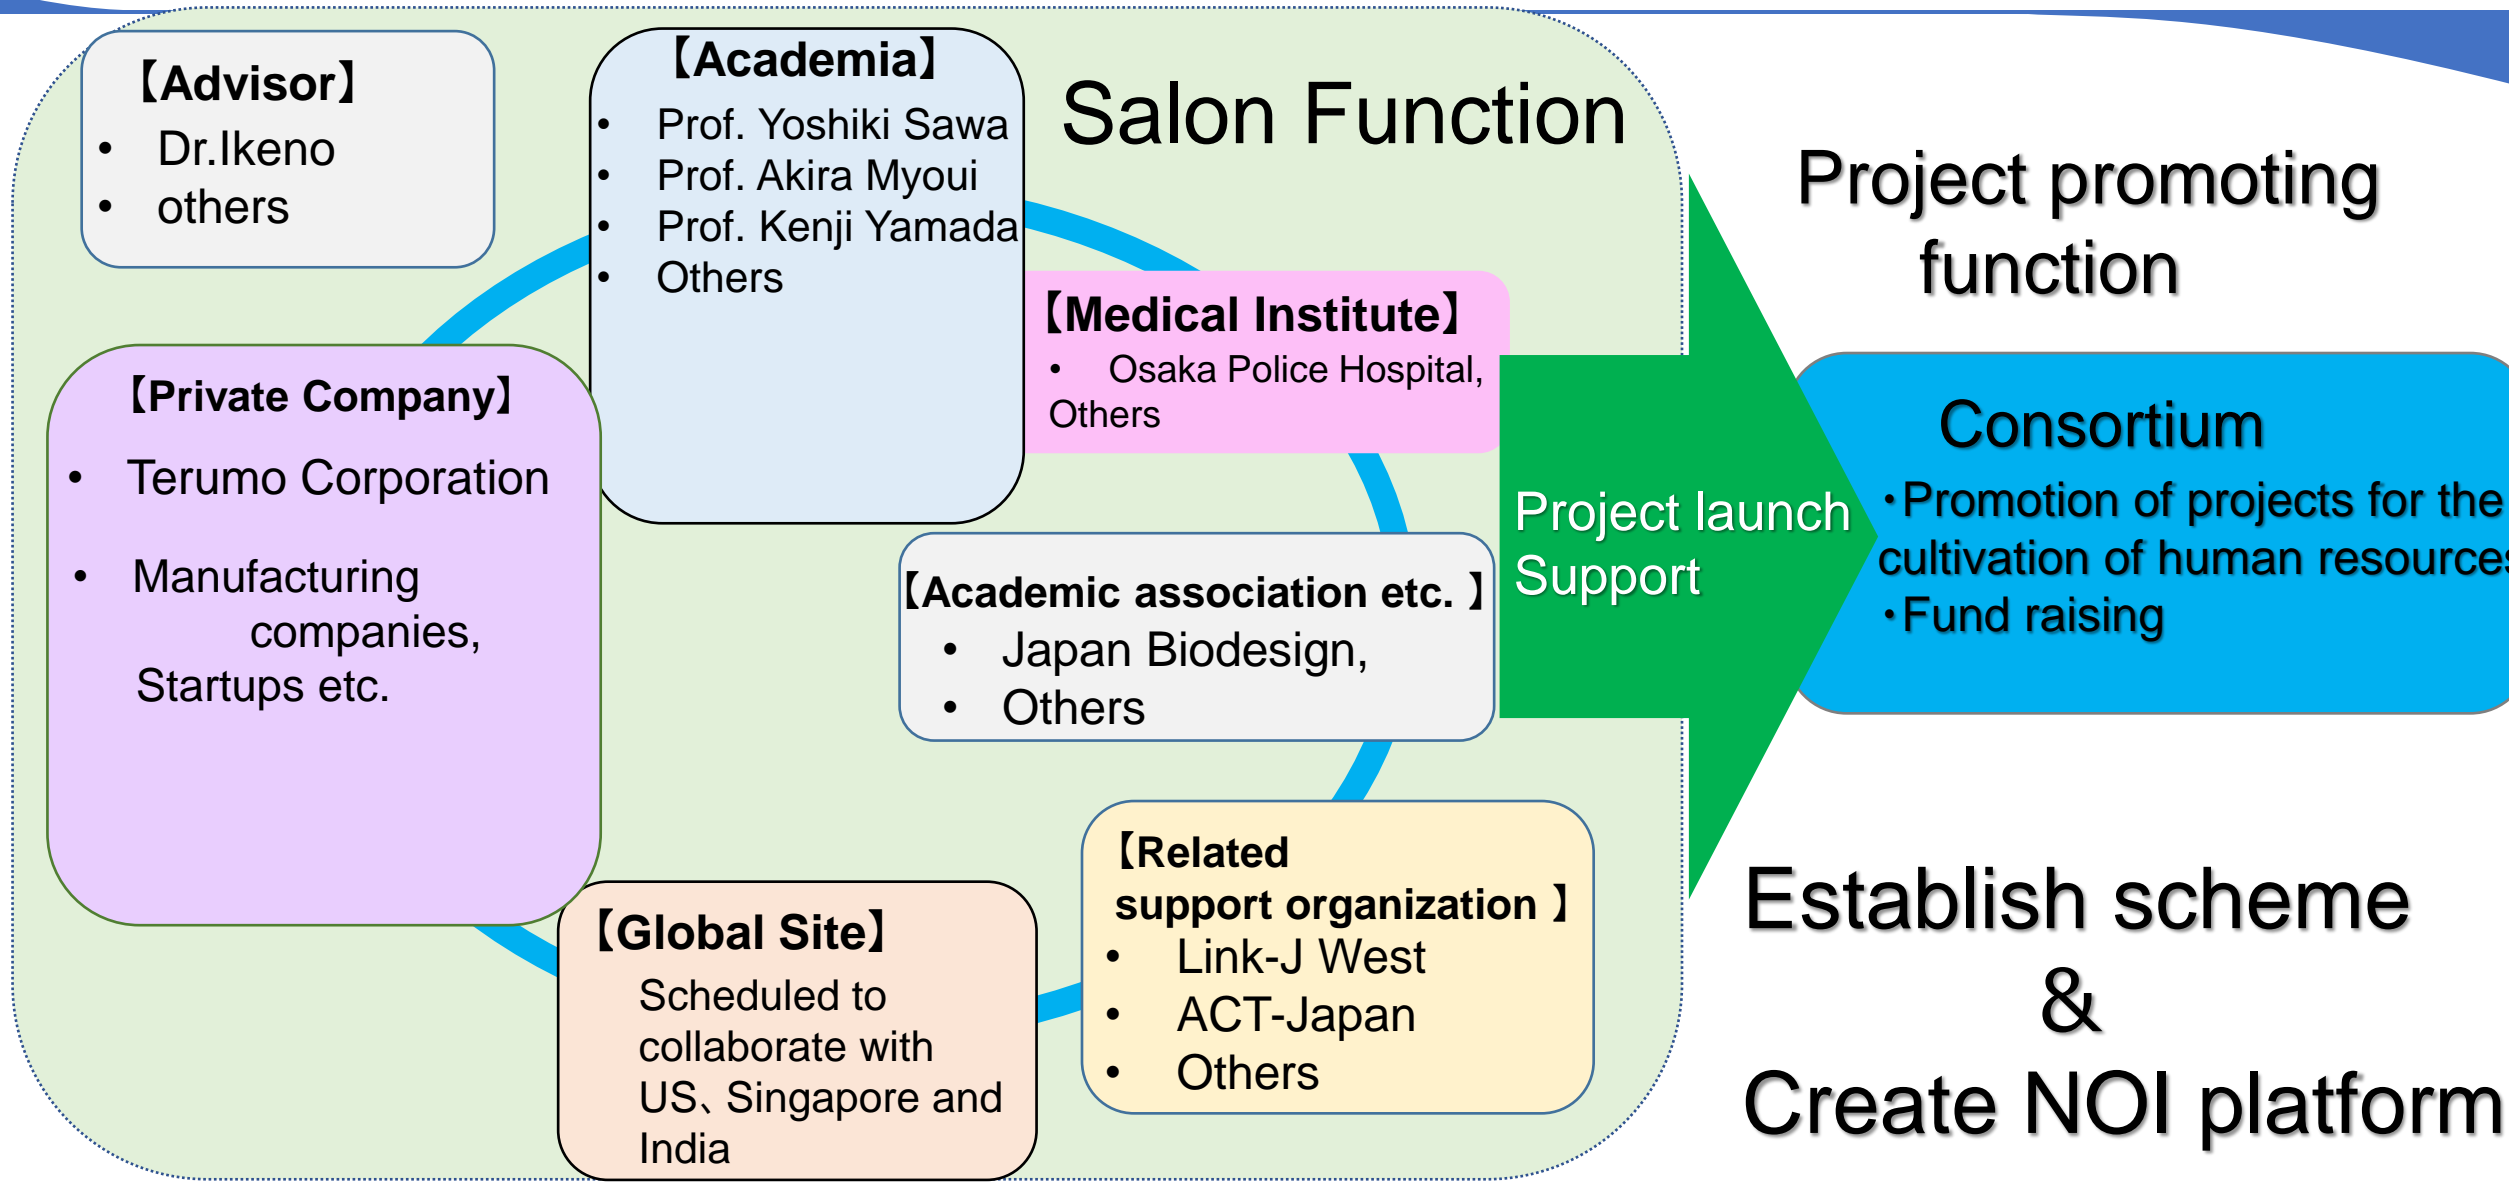

- ✓ Cultivate human resources to drive innovation (Biodesign etc.)
- ✓ Mentoring, Build Know-who network
